The Magic Fairy Dust

How many times have you been inspired by something you heard or read and thought "*Oh yaaaaa, that's it, that's the stuff I've been missing my whole life,*" only to be distracted moments later and lose the eureka moment forever?

Or, how many times have you made a New Year's resolution and only remembered it 364 days later when it was time to make the exact same one again?

You're fired up and ready to set the world ablaze. You've just received the magical missing ingredient that will finally bring the change you know is so desperately needed in your life, but then something, or more appropriately, *nothing*, happens. Why?

The answer took its sweet time to reveal itself to me, but once it did, had a colossal impact that would forever change my life's trajectory.

The real secret to the universe, the difference between mediocrity and super-achievement, feeling sorry for yourself and big bold beautiful happiness, the reason for the season, is ... ACTION.

Yes, you could have told me that. But what you probably couldn't tell me is both *WHAT* kind of action to take and *HOW* to take it.

That's where I come in :)

Step 1:

The What (The Book)

Over the years through many twists and turns, ups and downs, and failures and successes, I've discovered that ***while life is complex, principles are not.***

I've written a **book** that outlines the **five main areas (cores)** of our life we all share, and that if we're able to continually build positive momentum in, will lead to our best lives.

YOUR FIVE CORES

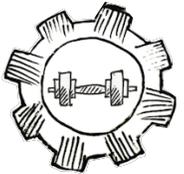

1. **Mindset:** Getting your mind working for instead of against you by adjusting your attitude, perception, and confidence.

2. **Career & Finance:** Doing what you love and what you are great at, executing your purpose, and exponentially growing your wealth along the way.

3. **Relationships:** Creating and maintaining deep, fulfilled relationships and gaining allies to help you achieve your goals.

4. **Physical Health:** Taking care of the physical health to ensure looking good, feeling good, and gaining the energy and stamina to propel you through life.

5. **Emotional Health/Giving Back:** Managing stress, expressing your passions regularly, and making sure the world is better, not worse, for having you in it.

Your cores work in conjunction with one another to equal your overall momentum/happiness meter, which is basically your gauge on "how excited you are to wake up every day."

Within each core, we all develop habits. **On a daily basis, 97% of our actions stem from our habits.** Habits don't care if they're good or bad. Either way they'll compound over time to form who you are.

Unfortunately, most of us have developed "**failure habits**" in each of our cores.

To live your best life, you'll need to figure out how to eliminate those failure habits and replace them with "**success habits.**"

The key is to keep taking the "right" actions in each of your cores long enough for them to compound together. This way you ensure *My Equation of Life* is working for instead of against you.

My Equation of Life:

Your Belief System
+
Your Repeated Actions
+
Time
=
'Who you will become'

Step 2: The HOW (The App)

Living in this "insta-generation" and being able to get whatever we want at the push of a button has done a number on our ability to follow through.

So even if you *did* take the time to read my entire book in all its splendor, chances are you'd forget it five seconds later when the "next big thing" jiggled itself in front of you.

In place of the standard "I'm going to tell you what to do, then expect you to figure out the best way to make it happen," I'm giving you my **proven system** to make sure you manifest what you're newfound insights.

I've combined the **latest in science and technology** to create an **App** that will ensure you take action and follow through with the "total truths" you'll be learning until they become part of you.

GET MOVING NOW!!!

*I'm currently hard at work finishing **The Book** and **The App** to ensure you build max momentum on your way to becoming and unstoppable force!*

Let's build moore momentum together :)

***My mission** in life is to help you become the best version of **YOURself** so you will in turn pay it forward to help the world become the best version of **ITself**.*

The first step to building momentum is learning "who you are."
